

SOLUTIONS TECHNICIAN

We are seeking an entry level Solutions Technician willing to service some of the world's largest Consumer Packaged Goods (CPG) companies. As a key member of our operations team, you will have a very important hands-on role as the primary point of contact with our client's production facilities. This position will provide technical guidance to, and collaborate with, all departments in the organization.

KEY ACCOUNTABILITIES

Field Operations | Midwest U.S. Locations | Typically 3-4 days at a time

The Solutions Technician will play an integral role in driving successful technical solutions and building client relationships in the field. While the position requires technical curiosity, a 6-month training period will occur prior to field exposure. Your purpose in the field will be to implement and support plant-related promotional activity, including:

- Inserting free premiums (like toys and samples) into products
- Labeling on-pack
- Training client personnel in basic equipment operating procedures

Tech Lab Operations | Bartlett, IL

When not in the field, you will develop and utilize your skills to:

- Execute equipment refurbishment & sanitation guidelines
 - Maintain a clean and orderly working environment following safe working practices
 - Prepare trip reports equipment maintenance records and client facility contact lists and all other relevant records
 - Participate in building custom automation equipment
-

REQUIREMENTS

- Strong positive attitude that builds strong relationships
 - Team-oriented to achieve organizational goals
 - Naturally curious with a knack for solving technical challenges
 - Maintaining Insight's excellent reputation and integrity
 - Willingness to learn, desire to contribute and driven to pursue the smart solution
-
